EXECUTIVE SUMMARY

One of the industries that have experienced a major setback during the pandemic is travel and tourism. It is estimated that the hotel and tourism industry has declined in revenues by eighty percent which is more than substantial damage. An overwhelming majority of accommodations and travel experiences have substantially less business or outright shut down their operations.

The overall business of travel and tourism in terms of reservations is expected to perform under capacity until at least 2025. This will not only have an impact on the businesses but the economy, as well as thousands of people.
The important aspect that should be kept in mind is that the travel and tourism industry present a great opportunity to reap immense profitability in the coming years. Right now, the businesses are highly undervalued by up to eighty percent because of the pandemic. As the vaccination programs start to roll out across different countries, these businesses will bounce back stronger than ever-increasing in value.

That's where Galileo Travel Futures is introducing the opportunity for you to participate in the future of tourism by leveraging pandemic pricing to enhance the travel experience to new levels over the course of the next five years relying on transferable NFT hospitality vouchers. The $TRVL token will open new doors of for tourism built on the blockchain.

NEAR FUTURE FORECAST

If we take the outlook beyond 2021 into consideration, after COVID Variant Delta, global tourist arrivals are expected to rebound in the second half of 2022. However, this outcome is based on the assumption that the pandemic will be contained slowly and gradually and the vaccine rollout will take place across countries leading to substantial improvement in traveler confidence and significant leniency in travel restrictions by the second half of the year.

The expected rebound is also a result of the massive suppressed demand after more than a year of travel restrictions and closed borders. While the rebound is believed to continue in 2023 as travel restrictions are lifted and the COVID-19 pandemic is contained across all continents, global tourism may still take 3 to 4 years to return to 2019 levels. The recovery durations for every scenario are as follows:
• Scenario One: Recovery in 2.5 years i.e. by mid-2023
• Scenario Two: Recovery in 3 years i.e. by the end of 2023
• Scenario Three: Recovery in 4 years i.e. by the end of 2024

These scenarios are heavily dependent on a multitude of factors that we need to take into consideration. Some of the key factors include the following:

**PANDEMIC CONTAINMENT**
The time duration of the pandemic is expected to last and when a cure/vaccine will be accessible to everyone.

**EASE IN TRAVEL BANS**
The time duration in which different countries will start to lift travel bans and ease restrictions. The impact of social distancing rules will also be a major factor.

**ECONOMIC IMPACT**
The effect of the COVID-19 pandemic on the global economy and the time it will take to recover from it. This will also be determined by the consumers' spending decisions.
BUSINESS & CONSUMER CONFIDENCE
Another major factor that will play a key role is the time it will take for businesses as well as consumers to start considering travel and tourism as safe activity once again.

QUALITY OF GOVERNANCE
One of the major drivers of the rebound in the travel and tourism industry will be the efforts and initiatives of different governments. The more effective the steps are, the quicker the recovery of travel and tourism across the globe.

CHAOS CREATES NEW OPPORTUNITIES
The sheer extent of underutilized assets in the travel and tourism sector means that there are billions of dollars of growth to return to the sector. While these assets have continued to decline in value since the inception of the COVID-19 pandemic, it is only a matter of time as the government starts to roll out vaccination programs which can further lead to leniency in travel bans and border restrictions leading to substantial growth to the sector.
SOCIAL RESPONSIBILITY CREATES A WIN-WIN SCENARIO

- Help businesses in the travel and tourism sector keep their heads above the water
- Support tens of thousands of jobs across different areas
- Provide support to regional and global economies, especially those that are reliant on travel and tourism
- Help realize upside potential of sector growth of 200% to 400% in the next 3 to 4 years
- Enable you to enjoy tourism and vacations in the future for a fraction of the standard pricing
WHAT IS GALILEO TRAVEL FUTURES

Headed by bestselling author Arthur Carmazzi, global guru, and resort owner, Galileo Travel Futures leverages these opportunities through a blockchain that enables the average person to buy $TRVL tokens which can be used to purchase highly discounted Travel Vouchers that are valid for 3 to 5 years. These can also be turned into non-fungible tokens or NFTs.

For instance, the average Ocean Side Villa at the Bulgari Resort Bali was approximately US$6000 in 2019 and currently sells for approximately US$870. Galileo Travel Futures can buy and hold the voucher. When tourism returns in full, the value of the voucher may increase or decrease in value depending on economic conditions.
GALILEO MOBILE APP

This is the native cryptocurrency or altcoin of Galileo Travel Futures blockchain that will be sold on the Binance Smart Chain. It has been especially created to fund the purchase of travel, tourism, and experience vouchers and support the Membership structure. Another underlying purpose is to ensure increment in value so buyers who have invested in the token can improve their holdings and prosper financially.

Example

We will create a package deal with Ritz Carlton in Marina del Rey, CA to assume 120 rooms for 1 week at a rate of only 80 dollars a night. When the holders have the app they will be notified with a message that there is a new deal at the Ritz Carlton they login to the app and click to lock in the reservations.

Holders that own and stake TRVL tokens will get VIP service and be notified first about the deal. The user will login and press purchase, only when all 120 rooms are booked by users of the Galileo app will their credit card be changed for the one week stay in Ritz Carlton.
GALILEO FLASH TRAVEL APPS
Gamified, Discounted, and Tradable Luxury Travel with 5 Year Expiration

Galileo Travel will go to a luxury hotel or experience and offer a large bulk purchase (let’s say 1000 nights)

The super low offer will appear on the app for 24 hours

Gamified incentives are given to users/participants to attract others to join the lottery

If at least 1000 nights are pledged, Galileo completes the purchase with the luxury hotel

Galileo then converts these nights to NFT smart contracts so they can be sold, traded or redeemed

If the 1000 nights are not pledged, participants are not charged
THE $TRVL TOKEN

THE TOKEN HOLDER BENEFITS:

- Reduced fees
- NFT Access
- Access to flash loans you need to stake a certain amount of TRVL tokens.
- Star access to exclusive deals you need high level of staked tokens
- Notifications before others if you have a large amount stakes, VIP access
- Staking rewards

TRVL TOKEN BENEFITS ARE AS FOLLOWS:

1. VIP deal access
2. Cashback rewards

STAKING POOLS

TRVL will have a multitude of staking and LP options for users with the token such as:
LP: TRLV / BNB
LP: TRLV / BUSD
Stake: TRVL

TRVL is the native token of Galileo Travel Futures blockchain that will reside on the (BSC) Binance Smart Chain protocol. It has been especially created to fund the purchase of the travel, tourism, and experience vouchers and support the Membership structure. Another underlying purpose is to ensure increment in value so buyers who have purchased the token can improve their holdings.

The $TRVL token will become more readily used as more NFT vouchers are used and additional liquidity for the token is created. Pre-sale for $TRVL will be announced on Galileo Travel Futures’ official Telegram and Twitter.
You can buy $TRVL tokens on the Binance Smart Chain to acquire highly discounted hotel and experience entitlements that come with a minimum of 3 year and up to 5 year validity.

A percentage of the collected funds will be used to invest in promising tourism projects.

As COVID-19 vaccination programs are rolled out and travel bans are lifted, enhanced consumer confidence will have a positive impact.

Token holders will be entitled to join in ownership of global tourist attractions and share in the monthly paid rewards.

Elite Club members who have minimum token stakes will get exclusive NFT Tickets to travel to exotic places and Mastermind with Arthur Carmazzi and other high-profile guests.
$TRVL

Wallet can be used to store $TRVL and transfer the NFT Entitlements to hotels or other travelers - this will also be available in a phone app.

BUY NFT ENTITLEMENTS WITH $TRVL FOR EXTRA 15% OFF

All Transaction Fees Are Deducted From Strvl In Wallet

STAKE $TRVL FOR MEMBER BENEFITS AND DISCOUNTS

Travel Market Place Is Only Available To Stakers And Supports User Marketing Of Travel Futures Club

BIGGEST DISCOUNTS  FREE TRAVEL NFTs  FREE TRAVEL EXPERIENCES  LOTTERY COMPLETE VACATIONS
KEY BENEFITS OF GALILEO TRAVEL FUTURES

DISCOUNTED ACCOMMODATION AND EXPERIENCE ENTITLEMENTS

As you might have already read that the current accommodation prices are over 80% cheaper as compared to the pre-pandemic prices, buying in Galileo Travel Futures means that consumers will be able to stay at their favorite resort, hotel, or other location for a fraction of a price. Buying Galileo Travel Futures will give consumers access to discounted accommodation vouchers which they can redeem in the coming years.
THE ABILITY FOR CLUB MEMBERS TO POOL RESOURCES

The average user and traveler may never get a chance to rent a castle, charter a 500ft luxury Yacht, or fly in a private jet, but with the Galileo Travel Futures NFT Vault, members can pool together for entitlements that may normally be out of reach. This provides incentives offered by no other travel and experience organization.

ELITE CLUB MEMBERSHIP

Users who have minimum token stakes will be rewarded Elite Club Membership and they will be entitled to get exclusive NFT Tickets to travel to exotic places with the project’s mastermind Arthur Carmazzi and other high profile guests. This will enable you to enjoy your experiences and enhance your exposure through personal and professional networking.
ENABLING TOURISM TO RETURN EARLY THROUGH INCREASED LIQUIDITY

After Varient Delta, it is estimated that half of the tourism will return by 2023 but it can take up to 5 years until we see pre-pandemic levels. According to experts, these estimates are wildly optimistic and only 2 out of 10 believe that tourism will start to return in 2022. By helping travel and tourism businesses financially, we can help them raise funds required to survive through these challenging times.

MAINSTREAM SIMPLICITY

Even though we are dealing with blockchain, the Member and Partner registration and simultaneous wallet creation process should be easy without the burden of remembering mnemonics or installing browser plugins. Using the FIO protocol, Galileo Travel Futures users or partners will be able to create Unique Human-meaningful crypto addresses and signatures like “Hyatt@Bali”, “Rafting@Juggernaut”, or Samuel@Traveler
NFT ENTITLEMENTS
ARE DIGITAL ASSETS THAT HAVE ALREADY BEEN PAID TO
THE PROPERTY OR EXPERIENCE PROVIDER

BY BUYING THIS, YOU HAVE
HELPED AT LEAST 2 PEOPLE KEEP THEIR JOB FOR A MONTH
INVESTED IN AN ASSET THAT WILL INCREASE AS TOURISM RETURNS
THE FLEXIBILITY TO SELL, TRADE, OR REDEEM THE ASSET ANYTIME BEFORE THE EXPIRATION
HOW DO GALILEO TRAVEL FUTURES WORK?

STEP 1 - TRANSFERRING LIQUIDITY TO NFT ENTITLEMENTS

The first step of the process involves transferring token liquidity to NFT entitlements. This is done through purchasing travel and tourism related entitlements with bulk pandemic pricing.

STEP 2 - PURCHASING NFT ENTITLEMENTS

During the subsequent phase, members buy entitlements at the market price using their fiat currency or crypto funds. It should be kept in mind that additional discounts are rewarded to the users who are using TRVL tokens to buy these NFT entitlements.

STEP 3 - TRAVEL ASSETS DASHBOARDS
The status of NFT entitlements that are bought by consumers and members are shown in Travel Assets Dashboard. The user interface is friendly and intuitive so users can navigate without any issue. This dashboard will allow consumers as well as members to sell, trade, or redeem their vouchers during the period of next 3 to 5 years.

**STEP 4 - STAKING $TRVL TOKENS**

Members can also stake their TRVL tokens to support the initiative and help people stay employed and businesses stay open through their purchase. When members stake their $TRVL tokens, they will also earn travel NTF rewards based on their magnitude of participation.

**STEP 5 - LIQUIDITY ADDED**

The returns made through sale of NFT entitlements and transaction fees are allocated to the liquidity of the TRVL token.
Token liquidity is transferred to NFT Travel Entitlements that have been purchased at Pandemic pricing of 50% to 90% under normal value.

NFT Entitlement value will change according to market demand as tourism returns.

Members buy Entitlements at “Market Price” with Fiat or Crypto funds (Additional discounts are given for using the TRVL Token).

Entitlements are visible in a Travel Assets Dashboard and may be REDEEMED, SOLD, or TRADED.

When Members Stake their TRVL Tokens, they earn rewards based on the Level of Participation.

Profits from Sale of Entitlements are reinvested in the liquidity of the TRVL token to support its increased Value.
WHERE GALILEO TRAVEL FUTURES MAKES MONEY

- Purchase Travel entitlements at pandemic pricing, as the pandemic subsides, pandemic pricing may fluctuate depending on market conditions.
- Each transaction will be charge $3.50 whether it is buy, sell, or trade
- Galileo Travel Futures will also invest in tourism projects that have extreme potential buy may have run out of funding during the pandemic. These investments will be negotiated to supply returns no less than quarterly once in operation.
- Disaster relief – there may be many natural disasters in the future that may affect high value tourist destinations which will create opportunities to support various businesses till they get back on their feet
HOW TO BUY TRAVEL ENTITLEMENTS

SEARCH FOR PROPERTIES OR EXPERIENCES YOU LIKE
Use location criteria and choose Expiration date

BECOME A FREE MEMBER
Registration creates a blockchain wallet

PAY WITH CREDIT CARD OR USE TRVL TOKEN FOR 15% DISCOUNT AND VIP MEMBER PRIVILEGES
Option to buy Tokens from P2P trading or buy on Pancakeswap

YOUR NFT ENTITLEMENTS APPEAR IN YOUR WALLET DASHBOARD
Each NFT is a signed Digital Contract with the Provider which you own. Information like Current Market Price appears under each entitlement

TRADE OR SELL ON P2P MARKET
People can Buy or Bid on the Travel Asset

TRVL TOKENS CAN BE DEPOSITED TO EARN FREE TRAVEL ENTITLEMENTS
The dashboard shows Deposits and Rewards

REDEEM TRAVEL ENTITLEMENTS
Go to the Provider’s Partner Page and request a Reservation with specific Dates WHEN YOU ARE READY. Confirm the Dates and Enjoy
The roadmap outlines the primary and secondary objectives of the GALILEO FUTURE TRAVEL project that the team intends to accomplish on a month-to-month basis.

APRIL 2021

- Hire a team of highly skilled and experienced blockchain developers
- Draft and issue a detailed whitepaper outlining the project’s aims and objectives

MAY 2021

- Carrying out private pre-sale of the TRVL token to early investors to raise funds for MVP
JUNE 2021

- Revise smart contacts for token and vesting
- Modify Travel Futures brand to Galileo Future Travel for legal purposes.

JULY 2021

- Set up and test smart contracts on BSCtestnet

AUGUST 2021

- Adding Bali destination Experiences and Packages at up to 80% discounts
SEPTEMBER 2021

- Striking strategic partnerships to develop a support ecosystem around TRVL project
- Make staking contracts live so TRVL stakers can get free NFT entitlements
- Incorporate FIO Protocol to create Personalized Wallet addresses and Personalize NFT Signing for Partner security
- Advertising retail site travelfutures.club with the Galileo Future Travel Branding on Instagram and Youtube
- Adding the celebrity, millionaire mastermind with Marshall Goldsmith, Arthur Carmazzi, and more in exotic locations to the staking reward pool
- Conducting a public AMA
- Launching marketing campaigns for TRVL token
- Initial DEX Offering
- Initiating and analyzing feedback from staked token holders
- Introduce Complete Family NFT Vacations
OCTOBER 2021

- Introduce Thailand as new location
- Continue to sign crazy and unique luxury experiences and identifying unique destinations
- Building out and promoting the Galileo Future Travel Family Community pages for interaction with other members, users, and stakers
- Create Cross-marketing contracts with accommodation and experienced partners
- PR about how many businesses and jobs we have saved investigation into tourism-related surpluses in depressed luxury markets
- Complete BETA of Galileo Flash Travel App
NOVEMBER 2021

- Adding the GALIEO FLASH TRAVEL APP lottery to sell Bulk rooms in 24 hours
- “High stakers” promotion to win high-end experiences like private jet rides and celebrity masterminds
- Advertising and launching retail site in North America travelfutures.club
- Entering additional partnerships with theme parks and attractions to offer on travelfutures.club
- Integrating membership where members pay monthly but can buy travel vouchers at original price +15%
- Introduce new celebrity masterminds and the Millionaire Jetsetter club
- Expanding holding through identifying and investing in depressed tourism-related or depressed assets.
- Create a launchpad for Tourism related projects
The TRVL ecosystem is a diverse and vast set of functions, features, and rewards that will help Galileo Travel Futures to acquire success. The primary pillar is staking which involves depositing TRVL to achieve travel asset rewards. Members can also acquire T-shares which are used to get travel assets through staking.

These NFT coded Travel Assets are sellable, tradable, and redeemable and include travel experiences such as helicopter rides, theme park tickets, yoga training, cruises and more as well as accommodations including hotels, villas, luxury penthouses, and the list goes on.

On the other side of the ecosystem are celebrity masterminds whom members can meet at exotic locations, millionaire jetsetters club, travel club family, and different ways to find travel buddies. All of this is enveloped in a P2P marketplace allowing members to sell, trade, and buy everything.
TOKENOMICS

MEET THE CORE TEAM

ARTHUR CARMAZZI - CEO

Ranked in 2021 as the #1 of the world’s top 30 Thought Leaders in Organizational Culture and #10 in Leadership categories by Global Gurus, Arthur F. Carmazzi has 25 years of experience specializing in psychological approaches to leadership and corporate culture transformation with an emphasis on Work Gamification Strategies to achieve Employee Engagement and Innovative High Performance. He has traveled to 58 countries and understand the needs and desires of the traveler

He is the owner of the Avalon Resort in Ubud Bali and innovator in the areas of new technology applied to organizational performance with online apps and tools like the CBCI Colored Brain system, Squadli Behavior Gamification App, the 360 Management Mirror perception gap tool, and the Culture Evolution Assessment system
JUAN MANUEL OCHOA
HEAD OF BLOCKCHAIN

Dedicated to the Galileo Project with extensive experience and speed as a Smart contract and blockchain integration expert. With expertise in Open Zeppelin
- Setting Up Access Control for Smart Contracts
- Managing Smart Contract Upgrades
- Indexing Smart Contracts
- Secure Development Series
- Ethereum and Solidity structures and implementation
SURYA PRATAP SINGH - BLOCKCHAIN TEAM LEADER

Blockchain developer who works with technology and R&D teams for development, designing and building solutions to leverage cross-asset concepts and frameworks. Works on emerging technologies and creates performance metrics for measuring blockchain performance.

Excels in multiple blockchain platforms and frameworks including Hyperledger Fabric, Hyperledger Besu (Lacchain), Hyperledger Burrow, Hyperledger Indy, Hyperledger Explorer, Hyperledger Sawtooth, Hyperledger Iroha, Hedera Hashgraph, Ripple, Quorum, Corda. EOS, OpenChain, Ethereum (ERC-20, ERC-721, ERC1404), NEO, Stellar, Binance Chain (BEP2, BEP20), TRON (TRC10, TRC20, TRC-721).
ABHINAV GARG – BLOCKCHAIN CONSULTANT

A leading blockchain architect and an experienced developer with a demonstrated history of working in the computer software industry. Skilled in Blockchain Platforms (Hyperledger fabric / Sawtooth / Indy, Ethereum, Quorum, Monax) and Integration Technologies WebSphere ESB, Data Power, API Connect, Integration Bus, Java Message Service (JMS), and Linux System Administration.

Have a strong Engineering professional with a Bachelor of Technology (B. Tech) focused in Computer Science from Uttar Pradesh Technical University.
PARTNERS SESSION
CONCLUSION

Galileo Travel Futures has laid the foundation for an innovative and unique method of leveraging the versatility and security of blockchain. This will not only allow consumers all over the world to enjoy experiences and accommodations in the future but will also provide a way for travel and tourism to reach a whole new audience.
